

Casino Jackpot Terms and Conditions

Version 1: Effective 09.12.2019

What is a progressive jackpot?

A progressive jackpot is a winnable pot of money that continually increases in size. It does this by retaining a percentage of the value bet on multiple contributing games.

What is a 'seed' value?

This is the amount the jackpot starts with and the amount it is reset to after it has been won.

Who contributes to the progressive jackpots?

The Operator places the initial seed value in the jackpot when the jackpot is created. Players then fund the jackpot value and the following seed values by placing qualifying bets on contributing games. Should the jackpot be won more than once in quick succession before the next seed amount is available, the Operator will add the necessary funds to make up the difference.

How much is contributed to a progressive jackpot?

This varies by jackpot. Below is a table showing active jackpots and their contributions;

Jackpot Name	Seed	Player Contribution	Contributing Games
Slots Jackpot	€1000.00	0.2% of Stake	Africa Wild Bollywood Nights Dragons Fortune House of Dracula Old West Pirate Island Pyramids of Anubis Reel Assault Tutti Frutti Santa's Gifts Turkish Nights

How do I know the monetary value of the progressive jackpot?

The value of the progressive jackpot is usually displayed at the top of the game screen.

Who can win a progressive jackpot?

A progressive jackpot can be won by anyone playing one of its contributing games, as long as the player has met the criteria set by the Operator. These criteria are stated in the game's individual help file. For instance, in the Pyramids of Anubis slot game, a player must have bet on the maximum number of paylines and achieved 5 Wild icons on one payline to win the Slots Jackpot.

How many times can I win the Jackpot per spin?

Once.

What happens if multiple players win a progressive jackpot at the same time?

As timings of bets placed are recorded to the microsecond, it is not possible for multiple players to win the same jackpot at exactly the same time. If multiple players placed bets that would qualify to win a jackpot in the same second, the system would order them sequentially by microsecond. The winner would then receive the full jackpot amount and the second player would receive the seed amount.

What happens when a progressive jackpot is won?

The game notifies the winner.

Does the 'maximum payout per bet' limit apply to progressive jackpot wins?

No

Is there a minimum bet to be considered eligible to the progressive jackpot?

The minimum bet to qualify as eligible for the progressive jackpot is 200 (Two Hundred) NGN (Naira)

Are there any payline restrictions on eligibility?

No, all games are locked to the maximum amount of paylines.

- These Progressive Jackpot T&Cs are only available to customers on bet9ja.com
- This Progressive Jackpot is organised by KC Gaming Networks Limited
- These Progressive Jackpot T&Cs should be read alongside Bet9ja's general terms and conditions, and casino terms and conditions
